

# PAPER SANTA CLAUS PUPPET

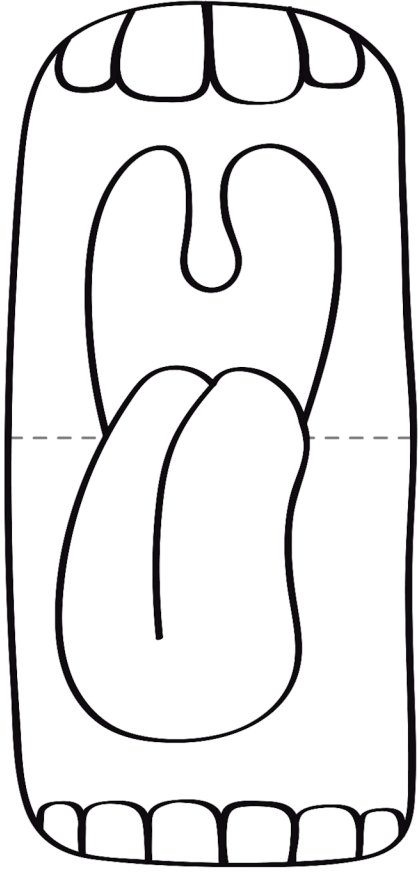

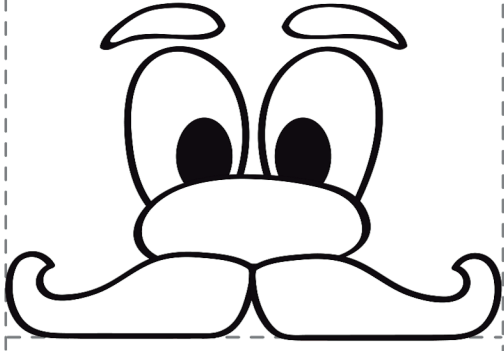

Skoolix

# Instructions

1. Print out the templates either on regular paper (easier to fold, great for younger kids) or heavier paper (a bit trickier to fold) which will be more durable.
2. Once printed, color in the template, just the middle part with the face is enough.
3. Also color the second page with the hat and the beard.
4. Cut the hat and the beard.
5. Fold along the dashed lines. Make sure all folds are crisp.
6. Make sure you fold both horizontal and vertical dashed line. Unfold once you are done.
7. With the face facing the table, fold back the “flap” that says glue.
8. Apply glue across the whole flap.
9. Fold the other side on the “glue” flap, gluing them together.
10. Fold into M shape, following the dashed lines.
11. Crease all folds.
12. Fold hat along the dashed line and apply glue on the white square.
13. Stick on the printable Santa paper puppet.
14. Do the same with the beard.

**All done! Your printable Santa paper puppet is ready to get chatty!**
